Mayor Triva Brigman of the Town of Pink Hill stated she was attending the meeting to support the Pink Hill Fire Departments' request for a new fire truck. Ms. Brigman stated the fire department does an excellent job protecting the citizens of Pink Hill.

Item No. 21X was a Resolution Authorizing Pink Hill Fire Department to Purchase one Pumper/Tanker for \$227,000 by Utilizing a Grant from USDA: \$79,000. Mr. Roger Dail, Emergency Services Director, addressed the Board. Mr. Dail stated staff has met with the Pink Hill Fire Department and all requirements of the contract have been met. Upon a motion by Mr. Stroud and a second by Ms. Sutton, Item No. 21X was unanimously approved.

Ms. Brigman stated on August 13, 2009 a meet and greet with Pink Hill Businesses will take place. On October 3rd "Explore Pink Hill" will be held; this is an invitation to come and explore what the Town of Pink Hill has to offer. The Pink Hill Area Preservation Committee is still in negotiations with the Lenoir County School Board to obtain the old Pink Hill Elementary school building. Mr. Bill Ellis, Parks and Recreation Director stated the Board of Education rejected the Pink Hill Committees' request to donate the school facility, but has offered to say the gymnasium and ball fields adjacent to the school. The Recreation Commission has offered up \$5,000 for the recreational properties. The Lenoir County Public Library is still interested in obtaining the building for an improved library facility for the Town. Mr. Jarman stated if the negotiations continue there will be a resolution to purchase the recreation facilities at Pink Hill from the Parks and Recreation Department. The Board thanked Ms. Brigman and Mr. Ellis for the update.

Mr. Dalton Cox of the North Carolina Forestry Service updated the Board on recent forestry activity. Mr. Cox thanked the Board and County Administration for their continuous support. Mr. Cox stated the North Carolina Forest Service is responsible for the protection and development of all woodland in Lenoir County. Lenoir County's land area consists of 255,936 acres of which 101,700 acres are forestland. Forests are many things to the citizens of Lenoir County. They provide clean water and air, wildlife habitats, stabilizes soil, and provides recreational opportunities. The North Carolina forestry Service provides many services to its citizens such as: Emergency response, forest management plans, timber exams, financial incentives, technical assistance, nursery sales, fire prevention and fire control. All the volunteer fire departments do a great job and the forestry service is appreciative of their work. The NC Forestry Service provides information and educational services to the citizens of Lenoir County through news articles, television interviews, Smokey Bear programs, and several others. In closing Mr. Cox stated it is to everyone's advantage that forests are well managed for environmental, aesthetic and economical reasons. The Forestry Service appreciates the support of the Lenoir County Board of Commissioners, County Manager and the cooperation of others in helping to achieve success. The Board thanked Mr. Cox for his presentation.

Mr. Sammy Aiken of the Lenoir County Crime Stoppers addressed the Board. Mr. Aiken stated the Lenoir County Crime Stoppers were established in 1982 providing an anonymous tip line to lead to arrest. Crime Stoppers is a non-profit organization and has been a very viable asset to the city and county. Funds are running low and donation requests will be sent out to citizens in the future. The Crime Stoppers number is 252-523-4444. The 2009 National Night Out will be held on Tuesday, August 4, 2009 at the Kinston Performing Arts Center. The event starts at 6 PM and is free to the public. The Board thanked Mr. Aiken for his information.

Mr. Griffin stated he would like to address the County's decision to turn down the \$2 million offered by Sanderson Farms for the purchase of land. The County agreed to purchase two sites for hatchery and feed mill sites for Sanderson. They offered to reimburse the county \$2 million for the purchase of the land. The question has been asked, "Can the County do receive monies in the process of an active economic development project?" The County cannot sell the land under those circumstances without opening the sale up to the highest bidder through the upset bid process. Allowable economic development activities, which can be undertaken by a county government, are set out in North Carolina General Statute 158-7.1. Section (d) grants a county authority to sell. It states that county must calculate the provable hourly wage to paid to workers by the business to be located at the property to be conveyed. This there is no business to employ the workers, then the whole Local Development Act – NC General Statue 158-7.1 doesn't apply. Since there is not an active economic development project, Sanderson Farms is in the same position as any other real estate speculator who offered the County \$2 million for this property. They can offer it, and the County can accept it, but the offer has to be subject to the ten-day upset bid procedure so that it goes to the highest bidder. Only when Sanderson has an active economic development project again, where the County can calculate the probable hourly wage to be paid to the workers by the business to be located at the property, can Lenoir County specifically contract with this company for the transfer of County land. The Board thanked Mr. Griffin for the information provided.

Mr. Ronald Dunn of the North Lenoir High School PTSA, and Mr. Russell Rhodes, Chairman of the Lenoir County Transportation Committee addressed the Board. Mr. Dunn stated he is representing the safety committee of the school. Mr. Dunn stated the school is experiencing traffic concerns at 7:15 and 2:30 from parents and students trying to enter and exist the campus. The flow of traffic has been changed on campus to better accommodate parents and buses.

The PTSA has recently requested rumble strips from NCDOT to slow down cars approaching the school. The request was just made to NCDOT members and a final recommendation has not been provided. Mr. Graham recommended taking the request to the Lenoir County School Board for their input and recommendation. The Board thanked Mr. Dunn for his information.

Ms. Akilah Ensley of the U. S. Census Bureau addressed the Board. Ms. Ensley stated Census form would be going out in March 2010. Lenoir County had a 62% response rate; Ms. Ensley stated she is working to increase that response rate. Confidentiality is a major concern of all citizens', this contributes to the low response rates. All Census workers must take a Title 14 oath to ensure the privacy of the information they obtain. Census information collected is not shared with anyone, and identifying information is not requested. The US Census will be hiring 1.4 million people in the fall to get information out about the census as early as possible. Mr. Jarman stated efforts have already begun to create a committee to assist with the census count of Lenoir County. The Board thanked Ms. Ensley for the US Census information.

Ms. Powell stated the Rural Operating Assistance Program (ROAP) for FY 2009-2010 consolidates several grants into one package. The ROAP funds are distributed through a formula based allocation. Lenoir County is eligible to receive funding for three (3) grants: Elderly and Disabled Transportation Assistance Program (EDTAP), Employment Transportation Assistance Program (EMP), and Rural General Public Transportation (RGP), including supplemental EDTAP, EMP, and RGP funding. EDTAP and EMP programs are 100% state funded and require no local match; RGP requires a minimum of 10% local funds (RGP ticket sales). An application must be submitted to the North Carolina Department of Transportation/ Public Transportation Division (NCDOT/PTD) in order to receive the funds. The County is the only eligible applicant for ROAP funds. The County (ROAP recipient) is responsible for disbursing the funds and making any sub-allocation determination for such funds at the local level. In past years EDTAP funds have been sub-allocated between the Department of Social Services and the Council on Aging. As of FY 2009-2010, Lenoir County Transit will be receiving 40% of EDTAP and EDTAP Supplemental and Council on Aging will be receiving 60% of EDTAP and EDTAP Supplemental the total amount allocated. The NCDOT/PTD requires that a public hearing be held to allow agencies and citizens the opportunity to participate in the sub-allocation decision and the opportunity to receive ROAP funding. While the County has full discretion for the sub-allocation of EDTAP funds, EMP Funds can only be allocated to the Department of Social Services or Lenoir County Transit (LCT); RGP funds can only be allocated/used by LCT for rural transportation. There were no questions or comments made by the public. Upon a motion by Mr. Graham and a second by Ms. Brown, the Public Hearing closed at 5:48 p.m.

During the first week of July 2009, a fan motor failed and shut the unit down leaving the ABC Store and offices without air conditioning for 4 days. Ed Phillips, Inc. has been keeping the unit running. They provided a proposal to the County Maintenance Department in February 2009 to replace the unit. The storage capability of the current server is reaching maximum capacity. In addition, nine new cameras were recently added to patrol vehicles that are used in the Town of LaGrange. This will require additional space needs on the server. The current server that is utilized to store data from in-car cameras has a capacity of 3 terabytes. To expand its storage capabilities the Sheriff wishes to purchase a Dell PowerVault capable of storing over 6 terabytes of data. These two devices combined will provide the Sheriff's Office with the ability to store 9 terabytes of image data. The total cost to purchase this piece of equipment from Dell is \$7,635.74. The records retention and disposition schedule is the primary way the DCR gives its consent. Without approving this schedule, agencies are obligated by law to obtain the Department's permission to destroy *any* record, no matter how insignificant. The County Sheriff's Office records retention and disposition schedule has been published by the N.C. Department of Cultural Resources and a copy has been made available to the county manager's office for review by the Board of Commissioners. The Lenoir County Sheriff's Office generates an enormous amount of documentary data, which is stored both electronically and in paper form.
